

**BELAIR**  
OFFICE PRODUCTS

# Furniture for your workday.

Belair Office Products, is at the forefront of the Canadian mid-market office furniture industry. Since 1993, we have been helping outfit successful organizations across the country with quality, practical furniture. Provided through our dedicated dealer network, Belair enjoys a wide following of its gorgeous finishes and innovative configurations. Many of these excellent designs come about through direct input from dealers and clients. Custom furniture needs are always welcomed.

### Partners Desk

Compact footprint allows close associates to share and collaborate yet have personal space.

### 2 Person Workstation

80" x 144" Footprint.

Movement is for everybody. Stay productive with this double workspace.

# We were made to move.

# ALTITUDE

Altitude is our answer to creating mobility and variety in the office. Various levels of work surface allow a user to walk up and work or sit to ponder. Paperwork can be collated across large standing surfaces or sit in your favourite chair and meet with clients. It's your choice how and when you use your body – to remain productive and healthy.

Examples of Altitude packages – many more options available.

### Active U-Shape

72" x 102" Footprint.

Combines the generous workspace and consultation area expected with a standing side desk for timely moments of standing.

### Standing L

80" x 72" Footprint.

Personal work area for both sitting and standing. Change the way you work in seconds.

## Style Meets Value

Belair produces several categories of value-oriented office furniture including meeting room tables. This popular selection includes custom sizing and edge-treatment options.

## Enhance your Transactions

The Transaction line features an "On-Desk" partition system reducing space requirements and adding modern design to privacy. Panels are available in several materials and endless combinations.

## Phoenix Series

Inspire your team. Refresh your workspace. The Phoenix collection turns simplicity and durability into stylish function. Many storage options are available to complement.

## Smaller Office Solutions

Outfitting small office footprints is increasingly important as real estate costs rise. Always a specialty, Belair creates functional space-saving workstations for maximum productivity.

## Candi is Suite

This commercial-duty furniture line ships unassembled and is produced in larger production runs in limited finishes. Candi's success has reduced reliance on container shipments from offshore and provided home-grown value.

## Be Forward-Facing

Now an industry staple, Belair was first to market with our affordable "Forward-Facing" workstation designs – facing computer users toward incoming guests and improving office relationships.

## Environmental Statement

Respect for our environment has been a long held value at Belair. Our commitment to high quality components and raw materials results in long lasting furniture that maintains its looks and functionality throughout its lifetime.

Over our history, we have consistently worked to reduce the waste from our processes. Wherever possible, damaged or blemished components are cut down and turned into usable components.

Our plant and offices actively recycle paper, glass, plastic, aluminum and other metals. Additionally we continue to seek ways to reduce the amount of paper consumed within our organization, moving to electronic format where possible.

We work to minimize the packaging materials that are used for individual orders, and in some instances are able to utilize our shipping expertise to ship unboxed so that the least amount of waste is created through this process.

Our lumber suppliers are also committed to sustainability and minimizing their impact upon the environment, meeting and exceeding government standards. Our main material, Canadian-made, commercial-duty melamine board consists of 100% recycled product.
