Q2164-2019

► Made as per the designers request for an executive office. This solution came directly from inspiration pictures that were sent to us. Our design team was able to turn this request into a slick looking private office for a happy client.

BELAIR

► FEATURED FINISH: **SABLE ISLAND**

We love when we get inspiration images or simple drawings on a napkin. Our team has the skills to turn those sketches into reality.

Q365-2019

► Sometimes our standard welcome centres don't provide the look and feel that a certain client requires. At first this specialty real wood welcome centre option was created for an insurance company in Northern Ontario where it really connected with the rustic outdoors that this company served. Since then this design has gained a bit of popularity and we have developed multiple variations of it.

BELAIR

The combination of our functional standard design on the inside married well with the distressed wood outer exterior.

► FEATURED FINISH:
GUNSTOCK WALNUT (PINE)

Q4489-2020

► This Boardroom was requested by a company who wanted a specific HPL finish for their table. We sourced the finish to meet their needs while the knife edge top provided a modern touch that resulted in a beautifully balanced look.

Having access to HPL finishes from many different manufacturers allows us and the designers we work with to really be involved in the process.

► FEATURED FINISH: **ASIANNIGHT**

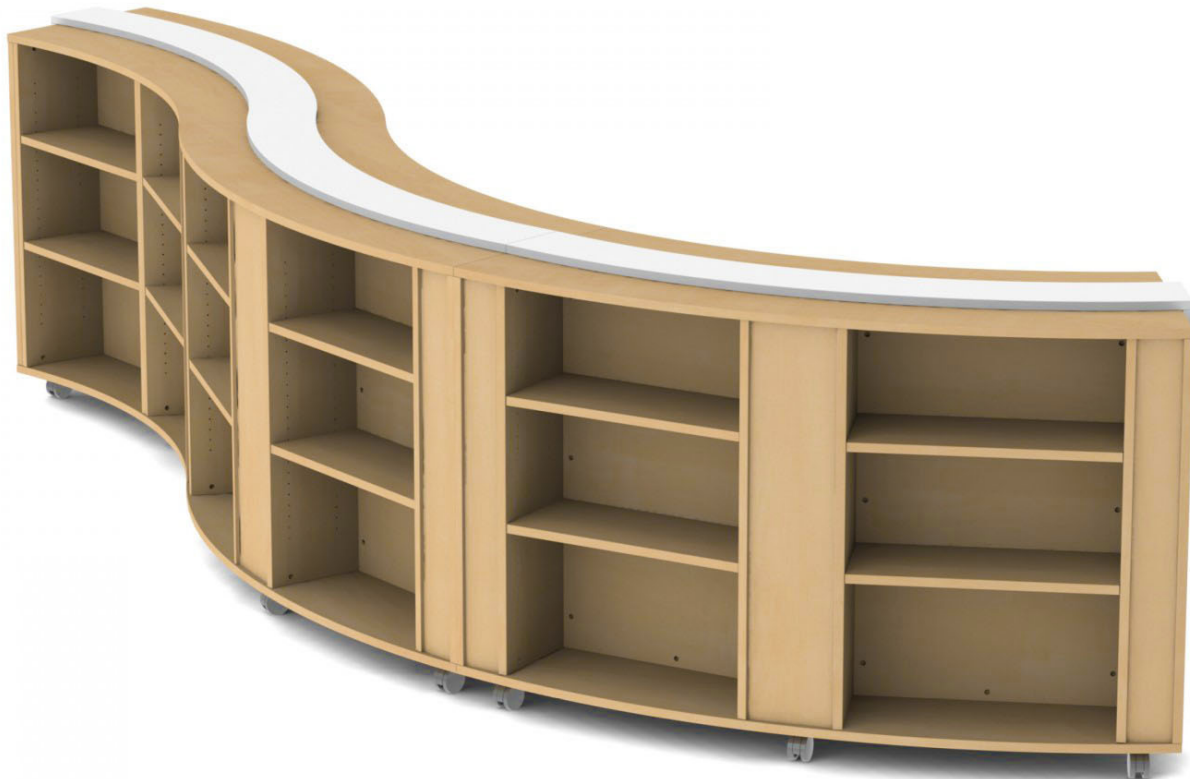

Q4470-2018

- Our mobile bookcases were created out of a request from a school board to meet the needs of a constantly moving and changing library. It started with a single request but has repeatedly been proven to be a great solution for the education sector.

BELAIR

► FEATURED FINISH: **PRESTIGE MAPLE**

The curved design allows for flexibility in the space as the heavy duty castors make the product easy to configure into multiple different layouts.

ARKOSE

Q2845-2018

- Personal storage units come in all sorts of shapes and sizes. This client wanted specific dimensions to accommodate the end users needs as well as to be compact enough to not take up too much footprint in each private space

- FEATURED FINISH: **WHITE**

Designed with the bookcase facing the side of the unit allowed for the desk surface to butt up against this unit nicely and provided the maximum use out of the storage cabinet.

GET INSPIRED

Q4560-2019

- This mobile podium with the waterfall design feature works great in the conference centre that it was designed for.

BELAIR

- FEATURED FINISH: **SOUTHWESTER**

With both open and enclosed storage space and a large work surface that will easily conceal a laptop, there is lots of room for many types of presentations.

Q998

► This executive style with floating shelves is a growing trend that we have seen success with. We love the dramatic affect that the two tone gives this space.

BELAIR

► **FEATURED FINISH: SABLE ISLAND / SLATE**

Our team strives to be open to the challenges that are thrown at us. This is often creating opportunities for development and growth. For example, this is one of those customer requests that will likely turn into a standard offering in the future.
